Essay

The essay portion of the application is very important to us too because it gives us a sample of your writing and helps us get to know you better. Please choose from one of the following prompts, keeping in mind that whichever one you choose, we want to learn important things about you as a person. Your essay of at least 2 full pages should be specific and detailed. We don't want to read a lot of generalities. We want to get a sense of a very specific person with specific characteristics, experiences, thoughts, and goals. The essay should be typed and double-spaced using the Times New Roman font and 12-point type.

1. Do you have a passion for a particular subject, cause, form of artistic expression, or something similar? How did your interest form? How has it affected your life so far? What role will it play in your college career? How do you see it affecting the rest of your life?
2. Give a detailed account of an experience that has helped to define who you are. Your story should make clear what happened, why it had such an impact on you, and what kind of person you have become as a result.
3. Tell us about someone whose work you admire. What do you admire about it? Why? What kind of influence has this person had on you? How do you expect his or her example to affect the course of your own life?

Extra-Curricular Activities

Please attach as a separate document a list those non-classroom activities in which you have participated within the past four years. List involvement in school-related activities such as clubs and sports as well as non-school activities such as community organizations and work-related activities. List any positions of leadership.
